Aging is inevitable. Though we cannot stop it, the good news is, we can slow down its process.

The MC Aesthetics system's multifacted approach to beauty will transform your hair and skin into its youthful appearance, a fuller hair and baby looking skin.

With over two decades of experience in hair care, skin care and medical aesthetics industry, Marlou Colina found the best way to slow down the aging process through the breakthrough scientific formulas found in MC Aesthetics hair and skin care products.

The MC Skin Care system is made of clinically proven formula that is made of 100% natural ingredients. This system will transform aging skin to baby skin results within the next 14-21 days. The system will properly exfoliate your skin and control unwanted pigmentation of the skin like melasma, sun spots, liver spots, acne, and uneven skin that naturally offers as part of the aging process.

As the products work in the skin at the cellular level, the skin begins to improve dramatically which results to a beautiful, baby skin feel and appearance.

These products are formulated with all natural key ingredients which exfoliates the skin such as glycolic acid, salicylic acid, vitamin a, lemon extracts, tea tree oil, and carrot extracts.

MC's innovative formula will eliminate your skin's melasma, by controlling unwanted tyrosinase enzyme that causes melanin inflammation resulting to dark spots and uneven skin tone. These key ingredients of MC Aesthetics skin care products are kojic acid, vitamin c, glutathione, azaleic acid, niacinamide, alpha arbutin and tranexamic acid.

MC Aeshetics products are Tretinoin free and hydroquinone free.
